Cheat Sheet Summary

| | |
|---------------------|--|
| System type | Sector / call bet (7 numbers) |
| Best suited table | European or French (single-zero wheel) |
| Usual bet type | Multi-chip sector bet (4 chips) |
| Risk level | Medium - 4-chip total stake |
| Changes house edge? | No. |

How it works

Covers 7 numbers around 0: 12, 35, 3, 26, 0, 32, 15. 4 chips: splits 0-3, 12-15, 32-35 + straight-up 26.

Example progression on 1-unit base

| Spin | Bet | Result | Cumulative P/L |
|------|--------------------|--------|----------------|
| - | split (1) | Win | +14 |
| - | straight up 26 (1) | Win | +32 |
| - | uncovered | Loss | -4 |

Where the risk appears

About 81% of spins lose the full 4-chip stake. Hits are infrequent but pay well when 26 lands.
