

Oscar's Grind Cheat Sheet

Roulette betting system · Kim Birch · RouletteSheet.com

Cheat Sheet Summary

System type	Positive progression
Best suited table	European or French
Usual bet type	Even-money bets
Risk level	Medium - slow burn
Changes house edge?	No.

How it works

Each cycle targets +1 unit. Hold the bet after a loss. Increase by 1 unit after a win (cap to lock target).

Example progression on 1-unit base

Spin	Bet	Result	Cumulative P/L
1	1	Loss	-1
2	1	Loss	-2
3	1	Win	-1
4	2	Win	+1 (cycle)

Where the risk appears

Cycles can drag for many spins. House edge applies to every spin in the cycle.
