

Paroli Cheat Sheet

Roulette betting system · Kim Birch · RouletteSheet.com

Cheat Sheet Summary

System type	Positive progression
Best suited table	European or French
Usual bet type	Even-money bets
Risk level	Low-medium
Changes house edge?	No.

How it works

Bet 1. Double on each win. Cap at 3 consecutive wins, then reset. Reset to 1 on any loss.

Example progression on 1-unit base

Spin	Bet	Result	Cumulative P/L
1	1	Win	+1
2	2	Win	+3
3	4	Win (reset)	+7
4	1	Loss	+6

Where the risk appears

Win streaks of 3 happen ~11.5% of the time on European tables. Most cycles fail before the third win - accept frequent base-unit losses.
