

Reverse Martingale Cheat Sheet

Roulette betting system · Kim Birch · RouletteSheet.com

Cheat Sheet Summary

System type	Positive progression
Best suited table	European or French
Usual bet type	Even-money bets
Risk level	Medium - streak-dependent
Changes house edge?	No.

How it works

Double after every win up to a cap (commonly 3 wins). Reset to 1 unit on any loss or after the cap.

Example progression on 1-unit base

Spin	Bet	Result	Cumulative P/L
1	1	Win	+1
2	2	Win	+3
3	4	Win (cap)	+7
4	1	Loss	+6

Where the risk appears

Profits depend on capturing the occasional good winning streak. Most cycles end before reaching the cap.
